TPE GLOVES

Transparent TPE GLOVES

TPE is the abbreviation for thermoplastic elastomer, which is generally used as a soft rubber material for thermoplastic molding machines.

Blue TPE GLOVES

The appearance of TPE is generally white, black, semi-transparent, or opaque. It is high resilience and high elasticity of rubber. Wide application range, good colorability, softness, good abrasion resistance, high temperature resistance, non-toxic, safe.

Black TPE GLOVES

TPE gloves are now widely used to replace Vinyl gloves, Nitrile Glove etc for some non-medical use, it has great strength and wearable enough, while the price is much cheaper than them

HDPE GLOVES

HDPE gloves with loose pack

HDPE gloves is the most economical choice for some work that doesn't require too much resistance, like food handling, household cleaning etc.

Pre-opened HDPE gloves

This kind of glove can avoid touching the surface of the glove during the process of tearing the glove, and keep it hygienic

Individually Packed HDPE GLOVES

Individually packaged gloves are mostly used in the food industry, easy to carry and hygienic

GLOVES

**DESIGN
FOR GARBAGE
BAGS**

Flat bottom C-fold garbage bags

This type is make common flat bags on roll in order for easier dispense and storage, and bottom sealing is 100% leakproof, in order to make the roll shorter, the bag is C-folded.

Star-sealed garbage bags on roll

This is the most common type that are used. The bottom is sealed like below picture, like a star when blow it with air. The strong point for this bottom sealing is leakproof, not allowing any escape of liquid.

Wave Top garbage bags on roll

Wave top garbage bags, also called flap top garbage bags, it is similar to the star-sealed T-shirt bags on roll above, but the opening can be used as ties.

Drawstring garbage bag on roll

Drawstring garbage bags, with a PP string, it is easily to close the opening by pulling the string. It is side sealing, so the bottom is 100% leakproof.

Gusset T-shirt bags on roll

This is Gusset T-shirt bags on roll, because the bottom sealing with gusset, so it is welded with different layers..

Garbage bag with PP tape

The tape is extra following with the bag, one bag one tape. It is perforated with the bags and attached to the bag. So it makes it impossible to use the PP tape to tie the opening of the garbage bag.

Star-sealed T-shirt garbage bags on roll

Based on above common star-sealed bags' advantage, people may like it with handle, that can easily take and dispose garbage, at the same time, it keep the leakproof bottom star-sealed sealing.

DOG POOP BAG
